

HOLOBEAM “IMMERSIVE TELEPRESENCE”

Experience True 3D
Telepresence from Anywhere!

Recently
featured in
[Forbes](#)

Valorem’s holographic telepresence technology, HoloBeam, makes it possible to remotely communicate with your colleagues using 3D depth, motion, and full color volumetric video and a standard internet connection, from anywhere in the world, in real-time, and with no perceptible delay. Instantly transform any meeting into a unique, personal and engaging experience without incurring travel expenses or wasting precious time.

Peer-to-peer and multi-party holographic live volumetric conferencing

Works with normal internet connections & within firewalls

3D viewing with HoloLens & other cross-platform devices

2D viewing from desktop, tablet or mobile

On-demand or real-time rendering options

Offered as a standalone system or SDK

HoloBeam was recently featured in [Forbes](#) and you can download the tech demo for free from the [Microsoft Store](#).
